STANDARD ROOF CEMENTS/MASTICS

501 All Weather Premium Roof Mastic
- Professional-grade Roof Mastic
- Buttery smooth consistency
- Power-Gel structure adheres to most surfaces wet or dry
- Highly resilient and durable through all seasons in all weather conditions
- Recommended to be applied with cotton or poly fabrics in a 3-course manner.

701 All Weather Flashing Cement
- Professional-grade asphaltic-base flashing cement
- Adheres to most surfaces wet or dry
- Multi-purpose Flashing Cement
- Formulated to repair leaks, cracked spots, holes in shingles, concrete, and steel or metal roofs

101 All Weather Plastic Cement
- Multi-purpose asphaltic-based Plastic Roof Cement
- Adheres and spreads easily to all prepared surfaces
- Homogeneous blend of high-grade fibers, select asphalt, minerals, plasticizers and aromatic hydrocarbons.

805 Commercial Grade Roof Cement
- Multi-purpose, Commercial-grade Roof Cement
- Formulated to repair leaks, cracked spots, holes in shingles, concrete, and steel or metal roofs.
- Versatile tough blend that will not slip or mud crack
- Recommended to apply with cotton or poly fabrics in a 3-course manner.

MODIFIED ROOF CEMENTS/MASTICS

2100 All Weather Rubberized Flashing Cement
- Premium, All-Weather, All-Season Flashing Cement
- Formulated for severe cold and/or wet surface conditions, even in driving rain or under water
- Fortified with Power Gel Technology so it will remain highly resilient and durable through all seasons.

509 All Weather Modified Mastic
- Heavy duty commercial–grade rubber modified mastic
- Adheres to all surfaces wet or dry
- Excellent adhesion, elongation and recovery characteristics
- Formulated for repairs and seams on SBS Asphalt Modified Roll Roofing
- Recommended for application on BUR, SHINGLE, TILE, MOD BIT, CONCRETE & METAL.

508 Wet Surface Modified Mastic
- Dependable, versatile soft and pliable modified rubber Mastic
- Formulated for superior adhesion under severe cold and/or wet surface conditions, even in driving rain or under water
- Fortified with Power Gel Technology so it will remain highly resilient and durable through all seasons.

2200 Rubberized Aluminum Flashing Cement
- Professional grade aluminum Flashing Cement
- High SBS rubber content provides flexibility
- Forms a heavy expandable, brilliant silvery finish
- Prevents rust, inhibits fungus and reflects over 60% of the sun’s damaging rays while reducing interior temperatures
- NOT TO BE SOLD IN SOUTHERN CALIFORNIA

NOTE: DO NOT use on APP, TPO, EPDM, PVC
