FOR IMMEDIATE RELEASE

**TROPICAL ROOFING PRODUCTS' PORT ARTHUR, TX PLANT
IS OPERATIONAL AFTER HURRICANE HARVEY**

PORT ARTHUR, TX – Tropical Roofing Products is confirming their Port Arthur, TX. manufacturing plant has been largely unaffected by the unprecedented flooding event caused by Hurricane Harvey in the Houston and surrounding Gulf Coast areas.

Tropical Roofing Products' Texas-based employees are committed to continue the manufacturing our roof coatings, mastics, adhesives and cements used in the repair and restoration of roofing systems during this catastrophic weather event that has affected so many of our Texas friends, distribution partners, contractors and their customers.

Tropical Roofing Products is applying every available resource to assist our customers during and after the storm event.

Our logistics team is working with each of our freight and trucking partners to schedule and coordinate shipments around the closure of so many highways and roads.

Furthermore, certain order fulfillment adjustments are being implemented to ensure all our customers receive their deliveries in a fair and equitable manner:

- 4 Pallet Minimum Order
- No Mixed Pallets
- All orders received and processed on a "First Come First Served" basis

To our Houston metro friends and customers, we extend our full support and best wishes for your safety and well-being as recovery continues.
