

997 UNIVERSAL ACRYLIC & SILICONE PRIMER

#997 MULTIPURPOSE PRIMER is a highly engineered, single-component, water-based primer designed for application over TPO, Concrete, Galvalume, Galvanized Steel, Aluminum, and other common roofing substrates - including difficult to adhere to membranes or surfaces. **#997** is designed to improve adhesion of the topcoat to the substrate and imparts water-resistant qualities before the topcoat of silicone or acrylic coating are applied.

- **FAST DRY**
- **LOW VOC**
- **SINGLE COMPONENT MATERIAL**
- **EXCELLENT ADHESION**
- **NO INTER-MIXING REQUIRED.**
- **RUST INHIBITING FORMULA OVER METAL**
- **WATER-BASED**
- **EASY TO APPLY BY SPRAY, BRUSH OR ROLLER**

997

APPLICATION
METHODS

AVAILABLE IN

COVERAGE: Apply at a rate of 1.0 gallon per 100 sq. feet per coat dependent upon roof porosity.
