|---------|--------------------|
| VOC     | <800g/L            |
| Density | 6.3 - 6.6 lbs./gal |

## MIXING PROCEDURES

Mineral spirits require no mixing. Use as provided. Use only with adequate ventilation.

## PRECAUTIONS

Contains petroleum distillates. Use only in well-ventilated area. Keep away from heat and open flame. Avoid prolonged contact with skin, eyes, and if swallowed, do not induce vomiting. Call physician immediately.

## CLEANUP

Mineral spirits can be re-used several times. Find your local hazardous waste collection facility with an online search for "hazardous waste collection" along with the name of your city, and a list of local disposal centers should pop up. The US Environmental Agency even contains a database of links to programs by state, where applicable.

These places should accept completely sealed containers filled (or partially filled) with paint thinner. To be safe, though, read up on the local facility or program's instructions so that you handle the disposal of paint thinner according to its terms.

## STORAGE SHELF LIFE

Protect from freezing. Store in a cool, dry place at room temperature. Product must be used within one year of purchase date.

KEEP OUT OF REACH OF CHILDREN. Close container after each use. DO NOT TAKE INTERNALLY! If swallowed, do not induce vomiting. CALL PHYSICIAN IMMEDIATELY!
